MURIYA COOLING SYSTEMS

Precision Cooling – Proudly Made in Oman

Engineering Industries (SFZ) SPC is a leading Omani manufacturer of advanced air conditioning systems under the MURIYA brand. Committed to quality, innovation, and energy efficiency, MURIYA products deliver reliable performance in harsh Gulf climates.

Engineering Industries (SFZ) SPC

Salalah Free Zone – Sultanate of Oman

About the Company:

Engineering Industries (MURIYA) – SFZ SPC is located in the Salalah Free Zone, Oman. The company specializes in the manufacturing and supply of high-quality cooling and air-conditioning systems. It provides complete engineering solutions including design, production, and maintenance of industrial and domestic cooling systems.

Quality Standards:

MURIYA is fully committed to international standards such as ISO and IEC, ensuring high performance, energy efficiency, and long-term reliability in all its products and services.

Vision:

To be a leading manufacturer in the Middle East & Africa for high-quality and efficient cooling systems.

Mission:

To deliver reliable, energy-efficient cooling products and services that meet both local and international market needs.

Products & Services:

- Electric Water Heaters
- Water Coolers
- Industrial & Commercial Cooling Systems
- Central Air Conditioning Units
- Maintenance & Technical Support

About MURIYA

MURIYA is an Omani brand specializing in advanced air conditioning systems designed for performance, efficiency, and durability under Gulf climate conditions. Our products combine modern engineering with local expertise to deliver reliable comfort for homes, offices, and commercial buildings across the region.

Mini Split (R410A)

Model	Capacity (Ton)	Refrigerant
MMS12KRO	1.00	R410A
MMS18KRO	1.50	R410A
MMS24KRO	2.00	R410A
MMS30KRO	2.50	R410A
MMS36KRO	3.00	R410A

Mini Split Systems

Inverter Mini Split (R32)

Model	Capacity (Ton)	Refrigerant
MMS12KINVO	1.00	R32
MMS18KINVO	1.50	R32
MMS24KINVO	2.00	R32
MMS30KINVO	2.50	R32
MMS36KINVO	3.00	R32

Ducted Split (R410A)

Model	Capacity (Ton)	Refrigerant
MDS30KO	2.50	R410A
MDS36KO	3.00	R410A
MDS48KO	4.00	R410A
MDS60KO	5.00	R410A
MDS100KO	8.50	R410A
MDS120KO	10.00	R410A

Ducted Split Systems

Central Air Conditioning Systems

System Type	Description
Air/Water Cooled Chiller	High-efficiency compressors, BMS ready
Packaged Rooftop Unit	Rooftop installation, easy service access
AHU / FCU	Modular air handling & fan coil solutions

Central Air Conditioning Systems
